

The 2019/20 grades season proved to be a success finishing mid table. However at one point we were sitting 3rd in the league with the two teams above to be played. Preference was given to the Div one side that meant having to concede two games and play one game with only 7 players thus the mid table finish.

Overall it was a very competitive squad with a good mixture of youth and experience. The younger lads showing how much they had learned from the previous season in grade one. The team competed well with no individual stars, all playing for each other and most importantly enjoying their cricket.

Highlights of the season include being one of only two teams to beat champions Bon Accord and also a game against Crescent at People's Park where over 500 runs were scored in the match but we lost by a couple of runs.

A core squad of 7-8 players available every week ensured we were competitive

I have no doubt that should we have kept this team in grade one this year we would have been challenging for the league.
